SYNC

DIGITAL TRACK · CASE A

Udyam Digital

A small business owner picks a plan, pays and gets connected from their phone, in their own language. No sales visit needed.

Most lost leads never even reached a real conversation

Where the 4,632 lost leads dropped out (Apr–Jun 2026)

1,611 of them (35%) didn't leave over the product. They left over a visit, a wait or paperwork. That's the part we move onto the phone.

7.4%
became customers
368 out of 5,000 leads

17.6 days
to get connected
and 3 calls from the owner chasing us

₹15,053
sales cost per customer
on a ₹6,900/month plan

9.6% vs 2.0%
conversion with vs without GST
GST status predicts who buys

Leased line, 10 mobile lines, 18 email seats, antivirus

Top numbers: smb_leads.csv. Plans and prices: real output of our rules engine for each example business.

From hello to a working connection, all on the phone

Chat with the advisor

~5 min

Hindi, English or Hinglish, typed or spoken. At most 6 questions. Our rules engine picks the products; the AI only explains them in plain words.

Pick a plan and a price

~2 min

Three plans: Essential, Recommended and Complete. One monthly price. Switch add-ons on or off and the price updates. If one isn't allowed, it says why.

Pay and send documents

~5 min

UPI AutoPay, then photos of 4 documents. The GST number fills the form, and each document is checked against the registry and the others.

Track it on WhatsApp

0 calls

A message at every step and a date from day one. The owner can move the engineer's visit from the link instead of calling us.

Need a person? If the owner asks for a call or needs a site survey, the lead goes to the partner console with the reason.

If a plan doesn’t fit, the app fixes it on the spot

“What if my budget or needs change?”

A button on every quote

1. **The owner changes something**
   A lower budget, more outlets, a new city, GST lapsed, or a different connection.
2. **The app says what broke, and why**
   For example: “Backup needs a fixed line, so it can’t run on 5G AirFiber.”
3. **It offers a way forward**
   The smallest change that fits, a trade-off to choose, or a specialist who keeps the need on file.

Tested on 1,000 broken quotes: every fix offered was valid.

Partner console

For sales reps, partners and admins

- Leads ranked by how likely they are to buy, with the top 3 reasons
- Where each lead stopped, and why
- A review queue for documents that need a human
- Funnel and cost-per-customer dashboard
- Separate logins by role and territory, with an audit log

We tested it on the case data, and the numbers hold up

0
wrong products
in 14,937 plans built for all 5,000 leads

27 / 27
test customers
got the right plan in 5 messages or fewer

564 / 564
broken quotes fixed
that could fit the budget

12 / 12
KYC applicants
given the right verdict and reason

0.67
lead score accuracy
ROC-AUC, using only day-one data

What Smart KYC found in the 12 sample applicants

K01	GST cancelled, Udyam number blank	Rejected
K04	GST certificate too blurry to read	Rejected
K05	Udyam certificate not uploaded	Asked again
K06	GST number fails its check digit	Rejected
K07	Business name edited on the certificate	Rejected
K10	ID holder isn't the contact on file	Sent to review
K11	Electricity bill is 257 days old	Rejected
K02, K08	Tilted photo, O read as 0: fixed	Passed

All numbers come from tests in our repo (scripts/scorecard.py). K03, K09 and K12 are clean and pass.

Others sell bundles too, but you still need a salesperson

	Udyam Digital	JioBusiness	Vi Business	Tata Tele Business	Local ISP
Internet + cloud + security in one plan	Yes	Yes	Partly	Yes	No
Buy fully online, no visit	Yes	Partly	Partly	Partly	No
AI advisor in Hindi and Hinglish	Yes	No	Partly	No	No
Documents checked in minutes	Yes	No	No	No	No
Fixes a quote that doesn't fit	Yes	No	No	No	No
Live order tracking, one bill	Yes	Partly	Partly	Partly	No

Partly = only for some products, or only through a salesperson or partner. Based on the companies' public pages, Nov 2026.

What the others do

JioBusiness bundles fibre with work tools, but buying starts with a form and a call-back.

Vi Business has a self-check tool; you buy online, via partners or in stores.

Tata Tele focuses on small firms but sells through partners.

Local ISPs are cheap, but the owner ends up with many bills.

Where we win

No visit, no waiting days for a quote, no calls to chase the order. That's exactly where leads were lost.

1.6x more customers each quarter, at about half the cost

368 → 600
customers per quarter
from the same 5,000 leads

₹15k → ₹8k
cost to win each one
spend drops from ₹55L to ₹48L

+₹1.9 Cr
new yearly revenue
from each quarter's extra 232

What we'll measure

Metric	Today	Target
Leads that become customers	7.4%	**12%**
Days to get connected	17.6	**7 or less**
Cost to win a customer	₹15,053	**₹8,000**
Calls chasing the order	3	**under 1**
Customers lost in 6 months	15%	**10%**

How we'd roll it out

MONTHS 0–3 Pilot
Offices in 2 big cities, in Hindi and English, on the web and WhatsApp

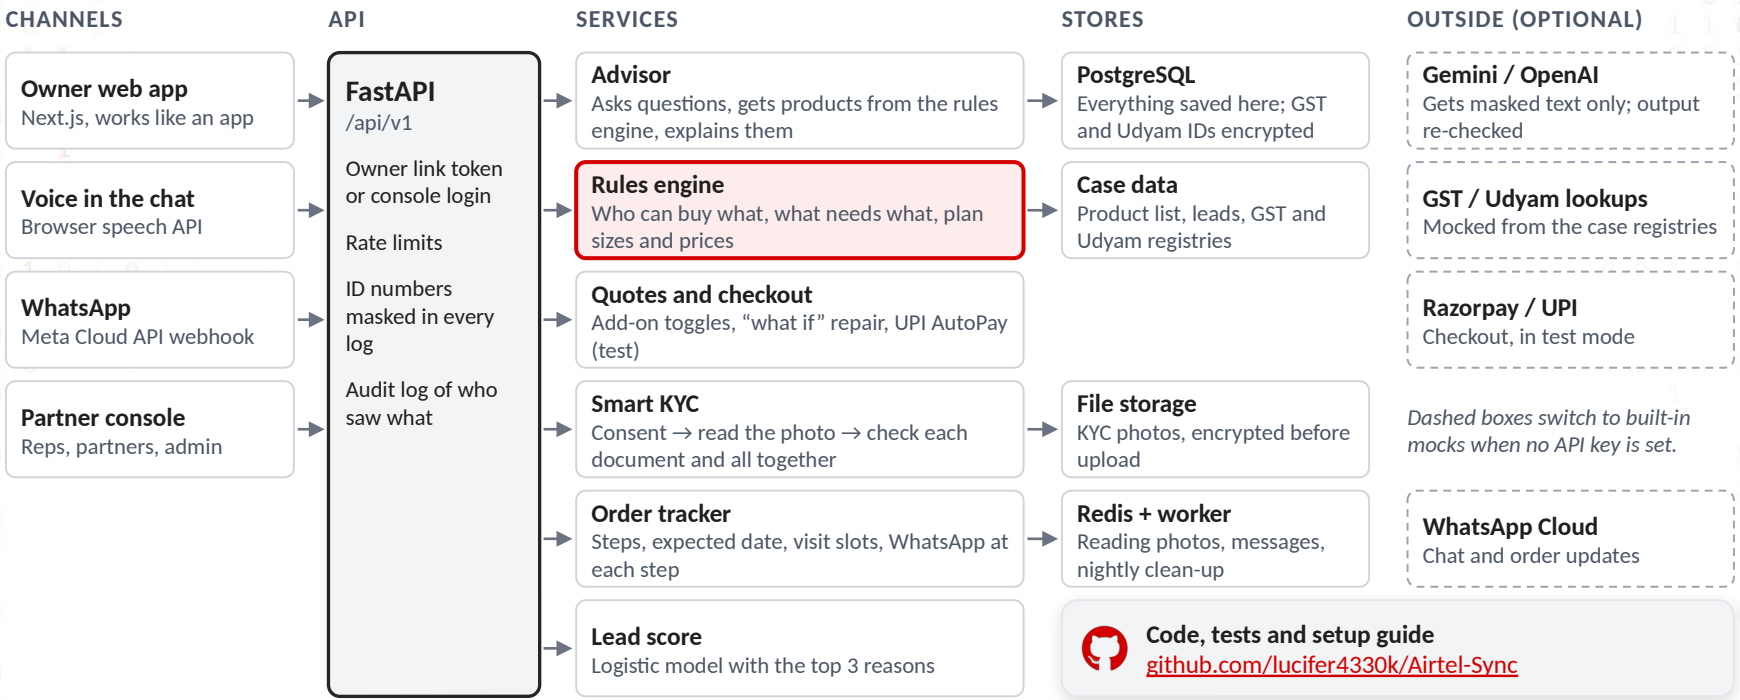

MONTHS 3–6 Grow
Small shops go fully online, more languages, partners on the console

MONTHS 6–12 Nationwide
Smaller cities and voice; the field team focuses on chains and factories

Sales teams aren't cut out: reps and partners earn commission on online sales in their area.

Today's numbers: smb_leads.csv. Targets assume each funnel step improves by 4–8 points. Revenue uses the ₹6,900 median plan.

How it all fits together

Platform Partner unstop
